Star Trac E-SM StairMill

Owner's Manual

Before using this product, it is essential to read this ENTIRE operations manual and ALL installation Instructions. It describes equipment setup and instructs members on how to use it *correctly and safely.*

Health related injuries may result from incorrect or excessive use of exercise equipment. Star Trac strongly recommends you to encourage your members to discuss their health program or fitness regimen with a health care professional, especially if they have not exercised for several years, are over 35, or have known health conditions.

TABLE OF CONTENTS

INTRODUCTION

Thank you for choosing the Star Trac E-SM StairMill. The StairMill has been designed to provide the user the most rewarding experience based upon the carefully planned features it possesses. The design elements of this product will provide you with a comfortable, intuitive, safe and reliable experience, guiding you to a habit-forming lifestyle. Our mission is to provide products to mold lifelong habits for health and fitness, and our StairMill will provide the path to meet your goals. Step to it!

ABOUT THIS MANUAL

This manual is applicable to the Star Trac E-SM StairMill, the manual is divided into eight sections, as follows:

o   Introduction

o   Provides an overview of each section within the manual.

o   Safety Instructions

o   Provides guidelines, in multiple languages, for safely operating the StairMill.

o   Assembly and Setup

o   Provides instructions for unpacking, assembling and setting up the StairMill.

o   Operating Instructions

o   Provides a detailed description of the Display Panel, and includes step-by-step instructions for operating the StairMill.

o   Preventative Maintenance

o   Describes the preventative maintenance measures required to keep the StairMill in top condition.

o   Manager / Maintenance Mode

o   Provides step-by-step instructions for changing universal parameters on the StairMill, and for performing built-in testing procedures.

o   Troubleshooting

o   Describes the start-up and shutdown messages provided.

o   Regulatory Information

o   Provides regulatory information for the StairMill.

SAFETY INSTRUCTIONS

This chapter includes fitness safeguards and precautions for the installation and use of the Star Trac E-SM StairMill. Please read this chapter carefully before installing or using your equipment.

Safety instructions are provided in the following languages (in the order shown):

- English
- Dutch
- French
- German
- Italian
- Portuguese
- Spanish
- Swedish
- Chinese
- Japanese

PRECAUTIONS

These safety notes are directed to you as the owner of the Star Trac E-SM StairMill. Please train all your users and fitness staff to follow these safety instructions.

Do

- Do encourage each of your users to discuss their health program or fitness regimen with a healthcare professional.
- Do stop operating your StairMill if you feel dizzy or faint.
- Do perform regular preventative maintenance.
- Do exercise slowly until you reach a level of comfort.
- Do use the StairMill only for its intended use, as described in this manual.

Do Not

- Do not let unsupervised children operate the StairMill
- Do not use without athletic shoes.
- Do not use in rainy weather outdoors, or in an enclosed pool environment.
- Do not drop or insert any object, hands, or feet into any opening, or underneath the StairMill.
- Do not attempt to remove any shrouds or modify the StairMill.

WARNING

Your Star Trac E-SM StairMill is designed for aerobic exercise in a commercial or consumer environment.

Please check with your physician prior to beginning any exercise program.

Do not push yourself to excess. Stop if you are feeling faint, dizzy, or exhausted. Use common sense when stepping.

Read the owner's manual in its entirety before operating the StairMill.

Failure to obey this warning can result in injury or death.

VOORZORGSMAATREGELEN

Deze veiligheidsaantekeningen zijn aan u gericht als eigenaar van de Star Trac E-SM StairMill. Gelieve uw gebruikers en uw personeel voor conditietraining volledig bekend te maken met deze veiligheidsinstructies.

Doe het volgende:

- Moedig elk van uw gebruikers aan hun gezondheidsprogramma of conditietherapie met een professioneel uit de gezondheidszorg te bespreken.

- Stop het gebruik van uw stepper als u zich duizelig of een flauwte voelt.

- Voer regelmatig preventief onderhoud uit.

- Oefen langzaam totdat u een comfortniveau heeft bereikt.

- Gebruik de StairMill alleen voor zijn bedoelde gebruik, zoals in deze handleiding staat beschreven.

Doe het volgende NIET:

- Laat kinderen zonder toezicht de stepper niet bedienen.

- Niet zonder gymschoenen gebruiken.

- Niet buiten bij regenachtig weer gebruiken, of in dichte ruimte met een zwembad.

- Laat geen enkel voorwerp in de stepper vallen en steek uw handen of voeten in geen enkele opening van of onder uw StairMill.

- Probeer geen omhulsels te verwijderen of uw StairMill te wijzigen.

WAARSCHUWING

Uw Star Trac E-SM StairMill is ontworpen voor aërobische oefeningen in een commerciële of gebruikersomgeving.

Zie uw arts vóór het beginnen van een oefenprogramma.

Dwing uzelf niet tot buitensporige oefeningen. Stop als u zich duizelig, uitgeput of een flauwte voelt.

Lees de gebruikershandleiding helemaal en aandachtig door alvorens uw stepper te bedienen.

Nalaten deze waarschuwing op te volgen kan letsel of overlijden tot gevolg hebben.

PRÉCAUTIONS

Ces consignes de sécurités s'adressent aux propriétaires du E-SM StairMill de Star Trac. Veuillez instruire tous vos utilisateurs et instructeurs à suivre ces consignes.

À Faire

- Encouragez tous les utilisateurs à consulter un médecin au sujet de leur programme de fitness ou régime d'exercice.

- Cessez d'utiliser le StairMill en cas d'étourdissement ou de faiblesse.

- Exécutez régulièrement la maintenance préventive.

- Commencez l'exercice lentement jusqu'à ce que vous atteignez un niveau confortable.

- Utilisez le StairMill uniquement de la manière prévue, telle que décrite dans ce manuel.

À éviter

- Ne laissez pas des enfants utiliser le stepper sans surveillance.

- Ne l'utilisez pas sans porter de chaussures d'athlétisme.

- Ne l'utilisez pas en extérieur lors de temps pluvieux, ni en intérieur dans une salle de piscine.

- Évitez de laisser tomber tout objet ou d'introduire les mains ou pieds dans toute ouverture ou en-dessous du StairMill.

- Ne tentez pas de retirer tout carter de protection ni de modifier le StairMill.

AVERTISSEMENT

Le E-SM StairMill de Star Trac est conçu pour l'exercice aérobique dans un environnement commercial ou privé.

Veuillez consulter un médecin avant de commencer tout programme d'exercice.

Ne vous poussez pas au-delà de vos limites. Arrêtez-vous si vous vous sentez faible, étourdi ou épuisé. Faites preuve de bon sens lorsque vous vous entraînez.

Lisez le guide de l'utilisateur en entier avant d'utiliser le StairMill.

Le non-respect de ces avertissements peut se traduire par des blessures, voire la mort.

VORSICHTSMASSNAHMEN

Die folgenden Vorsichtsmaßnahmen richten sich an Sie als Besitzer des Star Trac E-SM StairMill. Bitte schulen Sie alle Ihre Benutzer und Ihr Fitness-Personal in der Beachtung dieser Sicherheitsvorschriften.

Gebote

- Legen Sie jedem Ihrer Benutzer nahe, sein Gesundheits- oder Fitnessprogramm mit einem medizinischen Fachmann zu besprechen.

- Beenden Sie den Betrieb Ihres StairMill wenn Sie sich schwindelig oder schwach fühlen.

- Führen Sie regelmäßige vorbeugende Wartungsmaßnahmen durch.

- Trainieren Sie langsam, bis Sie eine gewisse Komfortzone erreichen.

- Verwenden Sie den stepper nur zum vorgesehenen, in dieser Anleitung beschriebenen Zweck.

Verbote

- Lassen Sie den stepper nicht von unbeaufsichtigten Kindern in Betrieb nehmen.

- Benutzen Sie das Gerät nicht ohne Sportschuhe.

- Benutzen Sie das Gerät bei regnerischen Witterungsbedingungen nicht im Freien und nicht in einer geschlossenen Schwimmbadumgebung.

- Lassen Sie keine Gegenstände in irgendwelche Öffnungen oder unter den stepper fallen und halten Sie Hände und Füße von diesen Bereichen fern.

- Unternehmen Sie keinen Versuch, irgendwelche Abdeckungen zu entfernen oder den StairMill zu modifizieren.

ACHTUNG

Der Star Trac E-SMStairMill ist für aerobische Übungen in einer kommerziellen oder Verbraucherumgebung vorgesehen.

Bitte holen Sie vor Aufnahme eines jeden Trainingsprogramms den Rat Ihres Arztes ein.

Trainieren Sie nicht übertrieben hart. Hören Sie auf, wenn Sie ein Schwäche-, Schwindel- oder Erschöpfungsgefühl verspüren. Lassen Sie sich beim Schritttraining von Ihrer Vernunft leiten.

Lesen Sie vor Inbetriebnahme Ihres stepper die Bedienungsanleitung vollständig durch.

Ein Missachten dieses Achtungshinweises kann Verletzungen oder den Tod zur Folge haben.

PRECAUZIONI

Queste note precauzionali sono dirette a voi, come proprietario dello Star Trac E-SM StairMill. Siete pregati di istruire i vostri uten- ti e il vostro personale all'osservanza di queste precauzioni.

Da Fare

- Incoraggiate i vostri utenti a discutere il loro programma di salute o di fitness con uno specialista dell'healthcare.

- Interrompete l'uso dello stepper se avete giramenti di testa o se vi sentite mancare.

- Eseguite periodicamente servizi di manutenzione.

- Utilizzate lo stepper soltanto per l'uso è a cui è destinato, come descritto nel manuale.

Da Non Fare

- Non consentite a bambini di usare lo stepper senza la supervisione di un adulto.

- Non utilizzate lo stepper senza scarpe atletiche.

- Non utilizzate lo stepper all'esterno in condizioni piovose o in un ambiente con piscina interna.

- Non lasciate cadere oggetti sullo stepper e non inserite oggetti, mani o piedi in qualsiasi apertura esterna o sotto lo StairMill.

- Non cercate di rimuovere le coperture o di modificare lo StairMill.

AVVERTENZE

Lo Star Trac E-SM StairMill è stato realizzato per esercizi di aerobica in un ambiente pubblico o privato adeguato.

Prima di iniziare un programma di esercizio fisico, consultate il vostro medico.

Non eccedete i vostri limiti. Fermatevi se vi sentite mancare, se avete giramenti di testa o se vi sentite esausti. Usate buon senso nell'utilizzo dell'attrezzatura.

Leggete il Manuale dell'utente interamente prima di utilizzare lo StairMill.

La mancata osservanza di queste avvertenze può comportare lesioni gravi o morte.

PRECAUÇÕES

Estas notas de segurança destinam-se a você, proprietário do Star Trac E-SM StairMill. Treine todos os usuários e o pessoal da academia para que sigam estas instruções de segurança.

O que fazer

- Incentive todos os usuários a discutirem seu programa de saúde ou sistema de condicionamento físico com um profissional da área de saúde.
- Pare o funcionamento do stepper se sentir tontura ou vertigem.
- Efetue a manutenção preventiva regular.
- Faça exercícios lentamente até atingir um grau de conforto.
- Use o stepper apenas de acordo com a finalidade para que se destina, conforme descrito neste manual.

O que não fazer

- Não deixe crianças sem supervisão operarem o StairMill
- Não use sem os sapatos esportivos apropriados.
- Não utilize em ambientes externos quando o tempo estiver chuvoso, nem em um ambiente fechado de piscina interna.
- Não deixe cair nem insira nenhum objeto, mãos ou pés em qualquer abertura ou sob o StairMill.
- Não tente remover nenhum degrau nem modificar seu StairMill.

ADVERTÊNCIA

Seu Star Trac E-SM StairMill foi projetado para exercícios aeróbicos em um ambiente comercial ou próprio do consumidor.

Consulte seu médico antes de começar qualquer programa de exercícios.

Não se esforce demais. Pare se sentir tontura, vertigem ou exaustão. Tenha bom senso ao fazer o exercício.

Leia todo o Manual do Proprietário antes de operar o seu StairMill.

Deixar de observar esta advertência pode resultar em ferimentos ou morte.

PRECAUCIONES

Estas notas de seguridad están dirigidas a usted como el dueño de Star Trac E-SM StairMill. Por favor instruya a todos sus usuar- ios y personal de entrenamiento para que sigan estas instrucciones de seguridad.

Lo que se debe hacer

- Dígale a cada uno de sus usuarios que discuta su programa de salud o régimen de ejercicio con un profesional de la salud.
- Deje de operar su stepper si se siente mareado o como que va a desmayarse.
- Lleve a cabo mantenimiento preventivo a intervalos regulares.
- Haga ejercicio lentamente hasta que alcance un nivel en el que se sienta cómodo.
- Utilice el StairMill solamente para lo que fue diseñado, como se describe en este manual.

Lo que no se debe hacer

- No permita que los niños operen su stepper sin supervisión.
- No lo use sin zapatos atléticos.
- No lo utilice afuera en la lluvia ni en un ambiente cerrado donde haya una piscina.
- No lo deje caer ni inserte objetos, manos o pies en ninguna apertura de su stepper ni debajo de él.
- No intente quitar ninguna cubierta o recubrimiento ni modificar su StairMill.

ADVERTENCIA

Su Star Trac E-SM StairMill está diseñado para el ejercicio aeróbico en un ambiente comercial o de consumo.

Por favor consulte con su médico antes de iniciar cualquier programa de ejercicio.

No haga un esfuerzo excesivo. Deténgase si se siente mareado, exhausto o como si fuera a desmayarse. Use su sentido común al hacer ejercicio.

Lea completamente el Manual del dueño antes de operar su StairMill.

El no cumplir con esta advertencia puede resultar en una lesión o en la muerte.

FÖRSIKTIGHETSÅTGÄRDER

Dessa säkerhetsanmärkningar är riktade till dig i egenskap av ägare av Star Trac E-SM StairMill. Var god utbilda alla användare och all personal att följa dessa säkerhetsanvisningar.

Man ska

- uppmuntra alla användare att konsultera sitt hälso-progam eller sin träningsregim med en läkare.

- sluta använda stepper om man känner sig yr eller svim-färdig.

- utföra regelbundet underhåll i förebyggande syfte.

- motionera långsamt tills man når en komfortnivå.

- endast använda stepper för dess avsedda användning, enligt beskrivning i denna handbok.

Man ska inte

- låta barn använda stepper utan uppsikt.

- använda stepper utan sportskor.

- använda stepper utomhus i fuktigt väder eller i ett innes-lutet bassängområde.

- tappa in eller föra in något föremål, händer eller fötter i någon öppning, eller under StairMill.

- försöka att avlägsna några skyddskåpor eller att modi-fiera StairMill

VARNINGAR

Din Star Trac E-SM StairMill är avsedd för aerobisk träning i kommersiella eller konsumentinriktade miljöer.

Konsultera din läkare innan du inleder något träningsprogram.

Driv inte dig själv för hårt. Sluta om du känner dig yr, svimfärdig eller utmattad. Använd stepper med sunt förnuft.

Läs igenom hela handboken innan du använder StairMill.

Underlåtelse att iaktta dessa varningar kan medföra skada eller dödsfall.

注意事项

以下安全注意事项是专门为 STAR TRAC E-SM STAIRMILL 的拥有人而制订的。请务必训练所有设备使用者和健身房工作人员遵守这些安全注意事项。

要：

- 鼓励所有使用者与专业医疗保健人员商讨他们的医疗保健方案或健身进程。
- 使用 E-SM 时若感觉到晕眩或虚弱，请立即停止使用。
- 定期维护设备。
- 锻炼要慢慢开始直至达到一个自如的程度。
- 仅将 E-SM 用作本使用手册所列的用途。

不要

- 不要让无人看管的儿童使用您的 E-SM
- 没穿运动鞋时不要使用。
- 下雨时不要在室外使用，也不要在室内游泳池附近使用。
- E-SM 的敞开部位或底下不要掉落或塞进任何物件、包括手或脚。
- 不要尝试拆除任何覆盖物或改装您的 E-SM

警告

STAR TRAC E-SM STAIRMILL 是专门设计用于商业或消费用途的健身锻炼设备。

开始任何锻炼计划之前，请先与您的医生进行商讨。

不要过于勉强自己。如果感觉到虚弱、晕眩或疲倦就应停止运动。运用常识正确举步。

使用 E-SM 前请先完整阅读使用手册。

如不尊从以上警告有可能会导致受伤或死亡。

注意事項

以下の安全に対する注意事項は STAR TRAC E-SM STAIRMILL E-SM のオーナーに対するものです。オーナーは、すべてのユーザーおよびフィットネススタッフ全員が以下の安全に対する注意事項に従うよう指導してください。

実施すべきこと

- ユーザーには、ヘルスケア専門家と各自のヘルスプログラムまたはフィットネス管理法について話し合うよう奨励する。
- 目まいを感じたり気が遠くなった時は、E-SM rの使用を中止する。
- 定期的に予防メンテナンスを実施する。
- 快適なレベルに達するまではゆっくりと運動する。
- 本マニュアルに従って、意図された目的のみのために E-SM を使用する。

すべきでないこと

- 大人の監督下にない子供に E-SM を使用させる。
- 運道靴の着用なしに使用する。
- 雨天時の屋外における使用、閉ざされた屋内プール環境での使用。
- E-SM を落下させる、あるいは使用中の E-SM または E-SM の下に異物、手、足を入れる。
- 保護カバーをはずそうと試みる、または E-SM を改造する。

警告

STAR TRAC E-SM STAIRMILL

E-SM は、商業環境および消費者環境でエアロビクス（有酸素）運動を行うために設計されています。

エクササイズプログラムを始める前に、必ず医師に健康状態を確認してください。

無理な運動は避けてください。気が遠くなったり、目まいを感じたり、ひどく疲れた場合は、すぐに運動を中止してください。使用に際しては常識的な判断を下してください。

E-SM を使い始める前に、オーナーズ・マニュアルを最後まで読んでください。

以上の警告に従わない場合には、負傷あるいは死亡などの結果を招く可能性があります。

ASSEMBLY AND SETUP

TOOLS REQUIRED

Most **STAR TRAC E-SM StairMill** can be assembled using the following tools (not included):

- Metric Hex Key Wrenches
- Metric Open-End Wrenches
- Metric Ratchet Socket Wrench Set
- Torque Wrench
- Channel Lock Pliers
- Vice Grip Pliers
- Rubber Mallet
- Phillips Head Screwdriver

The following parts are included with the STAR TRAC E-SM STAIRMILL:

Side Rails Inserts (Left and Right)	Top Shroud
Wheels (2)	
Owner's Manual & Warranty Card	Hardware #1 and#2

Star Trac E-SM StairMill

OWNER'S MANUAL

STAR TRAC
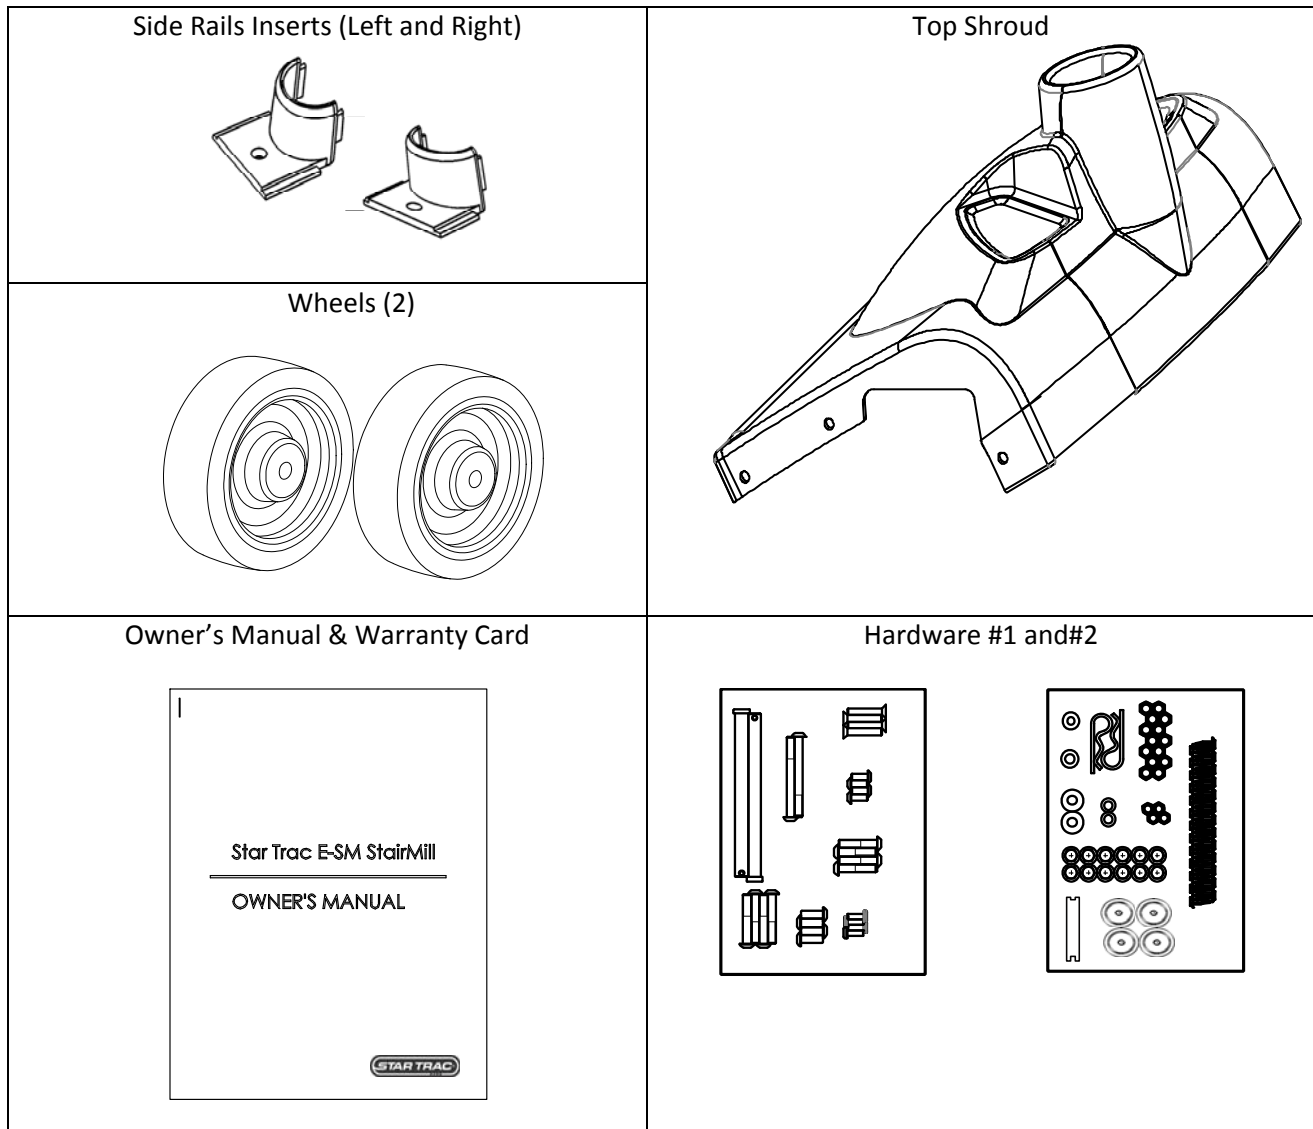

Bracket Mast Mount	Mast Assembly with Rubber Gasket
Left Shroud	Right Shroud
Front Handrail	Side Rails (Left and Right)
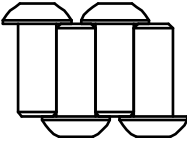

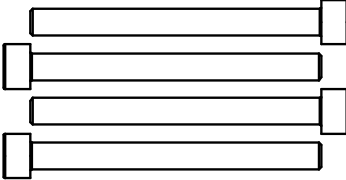

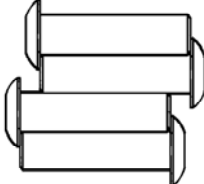

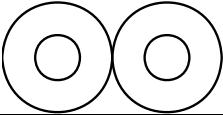

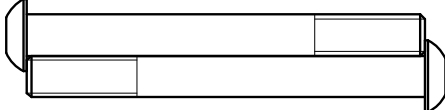

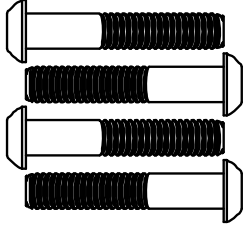

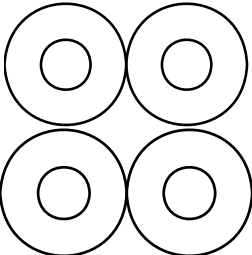

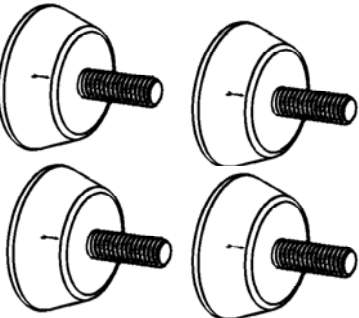

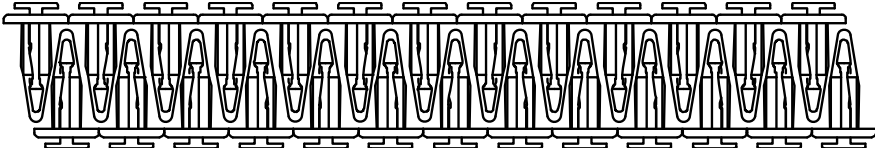

STAR TRAC E- SM STAIRMILL OWNER'S MANUAL

Main assembly Hardware #1		
Screw 5/16-18 X ¾" Button Head Black (4)	Screw M6 x 65mm Socket Head (4)	Screw 3/8-16 X 1" Button Head (4)
Washer 5/16 Flat Black (4)	Screw 3/8-16 X 3 5/8" Button Head (2)	Screw 5/16-18 X 1 ¾" Button Head (4)
Washer M8.5 Flat (4)		
Washer M10 Flat (12)	Clevis Pin (2)	Cotter Pins (2)

Main assembly Hardware #2		
Leveler (4)	Rivets (34)	
Washer, M6 Lack (4)	Nut, 3/8" Nylon Hex (6)	Nut, 5/16" Nylon Hex (4)
Rivet Puller (1)		

UNPACKING AND ASSEMBLY

NOTE: Inspect the shipping carton for any parts that may be missing BEFORE discarding the carton. Items can shift during transportation, and may be accidentally discarded with the carton. If any parts are missing, please contact Star Trac Support at 800-503-1221. Have the serial number of the StairMill and the part number(s) of the missing parts ready so they may be shipped to you.

1. Unpack the Shipping Carton

1a - Remove outer cardboard box using the hammer to remove staples along the box.
Figure 1a

1b - With a hammer or pry bar, remove the wood securing the front of the machine to the pallet. With the assistance of another person, remove the unit from the pallet.
Figure 1b

STAR TRAC E- SM STAIRMILL OWNER'S MANUAL

2. Install the Rails

2a - Secure the bracket Mast Mount to the frame using 5/16-18 X ¾" button head screw and washer M8.5 Flat.

**Figure 2a**

2b - Keep hold of the cables and rotate the display up. Now slide the neck over the two mount in the lower neck, take special care not to pinch the cables or your finger when the two pieces come together. Insert the rubber sleeve first.
Use 3/8-16x1" button head and M8.5 flat washer to tighten.

Figure 2b

2c - Thread in 5/16-18x1/3/4 in with 5/16 flat washer to the front and back of the neck where the two pieces come together. Use a 5/32 hex key to tighten the screws to 60 lb-in (6.7 N-m) of torque.

Figure 2c

Figure 2d

3. Install the Display Mast

3a - Feed the cables from the upper neck through the upper neck. Take care not to damage the display or handlebar on the ground. Make sure the gasket and top shroud are properly installed.

*Note:* This step may require two people.

Figure 3a

Figure 3b

3b - Keep hold of the cables and rotate the display up. Now slide the neck over the two mount in the lower neck using 3/8-16x3 5/8" button head. Fasten the bolt by using the washer and 3/8" Nylon Hex. Take special care not to pinch the cables or your finger when the two pieces come together.

3c - Thread in M6x65mm socket head in the front and back of the neck where the two pieces came together. Us a 5/32 hex key to tighten the screws to 60 lb-in (6.7 N-m) of torque.
4. Install the Side Shrouds

Figure 3c

4a - Attach the left and right shroud to the main frame using the rivets.

Note: make sure the shrouds snap in place.

Figure 4a

4b - Attach the side rail inserts to the main frame using rivets. Ensure the shroud mates with side rails. Fit for item rubber sleeves must be secure within perspective plastics.

*Repeat the same process for the opposite side.

Figure 4b

5. Install Display

5a & 5b - Now that the base of your E-SM is assembled, is time to add the display.
Take out the display assembly from its own box and separate the back cover from the front display.

*Note:* Keep all the hardware included with the display for later use.

Figure 5b

Figure 5a

5c - Mount the rear cover to the handrails. Attach using the 4 M4 x 0.7 screws provided.
Figure 5c

5d - Plug in the 12 pin display cable from the neck into the front display circuit board at J4. Next plug in the heart rate cable from the handlebars into the HR board, then plug the HR ground into the quick disconnect tab on the display frame.
<u>* If you are installing Entertainment, Refer to the PVS Install guide before this step.</u>
If not take the Coax and DC power and return them down the neck.

J4

Ground Cable

HR Connector

Ground Tab

Figure 5d

**5e** - Slide the bottom of the front display under the 2 tabs at the base the mount. Press display against the round bar and rotate it to the back. Be careful not to pinch any wires. With the display in place, attach the 8 M4 x 0.7 screws provided. 6 screws go around the rear display and 2 go underside of the cupholders as shown.
Figure 5e

STAR TRAC E- SM STAIRMILL OWNER'S MANUAL

6. Install Levelers and Transportation Wheels

6a - With the assistance of another person, tilt the unit to one side and insert the clevis pin from the outside of the frame. Slide the transport Wheels onto the Clevis Pin and secure with the cotter Pins. While still tilted, insert levelers in the front and back of the unit.

*Repeat the same process for the opposite side.
Figure 6a

7. Remove Transportation Wheels

7a - Roll the E-SM to the workout location. With the assistance of another person, tilt the E-SM to one side and remove the cotter pin, the clevis pin, and the wheel.

*Repeat the same process for the opposite side.
Figure 7a

8. Final Assembly

8a - Be sure all bolts and screws are tightened securely.

If needed, use the leveling adjusters at the rear and front of the base to level the unit. Loosen the lock nuts on the adjusters. Rotate the adjusters until the unit is stabilized, then retighten the lock nuts.

You have now completed the assembly of your ***STAR TRAC E-SM StairMill***.

Figure 8a

OPERATING INSTRUCTIONS

Operating the Star Trac E-SM StairMill is very easy. Simply mount the StairMill by stepping on the revolving steps, begin stepping, and press QUICK START. Learning the features and incorporating the Star Trac E- StairMill into your members' fitness programs is just as easy. In this chapter, you will learn the display functions and how to get the most out of every Star Trac StairMill workout.

IMPORTANT: Before operating the StairMill, you must be familiar with the following equipment limitations:

- ■ Maximum weight: your Star Trac StairMill is designed for a maximum user weight of 350 lbs/158 kg. DO NOT exceed the maximum user weight.

DISPLAY PANEL FEATURES

Your Star Trac StairMill is equipped to provide you and your users unlimited exercise opportunities. Experiment with its features to find the right combination for your fitness regimen. The display panel provides the operating controls and display elements described in the following paragraphs.

QUICK START Key: Enables the StairMill for manual operation using a default weight as set in Manager/Maintenance Mode, a default LEVEL of "1", and a default time limit as set in Manager/Maintenance Mode.

NOTE: Default time and weight are adjustable through Manager/Maintenance Mode.
Numeric Keypad: Allows you to enter specific values for program parameters during program setup. During a program, these keys may be used to change difficulty level.

OK key: (part of numeric keypad) Allows you to confirm selections during program setup and operation.

ARROW key: (part of numeric keypad) Allows you to make corrections to values entered during program setup.

Increase LEVEL key: Increases the difficulty level, in one-level increments; levels are from 1 (least difficult) to 20 (most difficult). Current level setting is shown in the LEVEL display window.

Decrease LEVEL key: Decreases the difficulty level from 20 (greatest difficulty) to 1 (least difficulty), in one-level increments. Current level setting is shown in the LEVEL display window.

NOTE: During program setup and while in Manager/Maintenance Mode, the Increase LEVEL and Decrease LEVEL keys increment or decrement the value shown in the information window.

Fan key: Allows you to control the speed of the personal cooling fan, either OFF, HIGH or LOW.

SCROLL keys: Scrolls the upper and lower data information windows between the three available data displays.

Preset Program Keys: Allow you to access a desired preset workout program.

Upper data information window: Shows current and aggregate data related to your workout. Pressing the associated SCROLL key scrolls between the following displays:

- CALORIES - Shows your aggregate caloric expenditure thus far in your workout.
- CAL/HR - Shows your current caloric expenditure per hour based on your current difficulty level and stepping rate.
- WATTS - Shows your current watts expenditure at that specific time during your workout.

  NOTE: Press the SCROLL key to toggle between data during your workout.

Lower Data Information Window: Shows current and aggregate data related to your workout. Pressing the associated SCROLL key scrolls between the following displays:

- DISTANCE - Shows the total number of vertical feet or meters you have climbed thus far.
- SPEED - Shows the speed at which you are currently stepping, in steps-per-minute.
- METS - Shows your current METS expenditure at that specific time during your workout.

  NOTE: Press the SCROLL key to toggle between data during your workout.

Graphic Display: Traces your progress through each of the programs and allows you to anticipate changes in difficulty. Display elements illuminate from left to right across the bottom of the display to indicate your progress through the course. At each step, display elements illuminate in columns to indicate your ascent up the gradient that is in effect.

Motivational Track: Shows your progress counter-clockwise around a 10-floor course, starting from the bottom center.

Information Window: Provides informational messages, prompts during program setup, feedback during your workout, notification when your workout is complete, and scrolling summarized workout data after your workout. During your workout, the Information Window shows the following data:

- TIME - Shows the duration of your workout thus far in minutes and seconds.
- FLOORS - Shows the total number of floors you have climbed thus far.
- HEART RATE - Shows your current heart rate in beats-per-minute (BPM) while wearing a heart rate strap or grasping the heart rate grips.

Depending on the program completed and StairMill settings as set in Manager/Maintenance Mode, workout data may include:

- Time elapsed
- Calories expended
- Distance traveled - vertical feet or meters
- Floors climbed
- Average speed - steps per minute

- Average calories expended per hour
- Average watts
- Average METS
- Average heart rate

HINTS AND TIPS FOR GETTING STARTED

The following hints and tips will assist in training your users to maximize the fitness benefits of your Star Trac StairMill.

- Step at a rate that feels comfortable and most natural, yet is sufficient to achieve a good cardio workout.

- Try different stepping rhythms. In manual operation, vary your stepping speed from slow to fast, then back to slow. As you become more comfortable with your StairMill, try stepping faster, varying the difficulty LEVEL, or using the preset programs.

- Watch the graphic display to anticipate changes in difficulty. When you use the preset programs, the display shows changes in difficulty as tall or short columns.

VIEWING WORKOUT DATA DURING A PROGRAM

Workout data is shown in three windows on the StairMill Display Panel: the Information Window (located at the top of the Display Panel) and the upper and lower data information windows (located inside the motivational track, to the right of the graphic display).

Information shown in the Information Window during a workout includes elapsed time, number of floors climbed, and heart rate (HR), when in use. After the workout is complete, workout summary information is shown in the Information Window.

The information window also displays important instructions and cues throughout the workout.

The upper and lower data information windows also display information during a workout.

To view workout data during your workout:

1. Press the upper data information Window Scroll key to view the following workout data (the current data display is indicated by an LED next to the parameter name):

   - CALORIES - Shows your aggregate caloric expenditure thus far in your workout.
   - CAL/HR - Shows your current caloric expenditure per hour based on your current difficulty level and stepping rate.
   - WATTS - Shows your current watts expenditure at that specific time during your workout.

   NOTE: Press the Scroll key to toggle between data during your workout.

2. Press the lower data information Window Scroll key to view the following workout data (the current data display is indicated by an LED next to the parameter name):

   - DISTANCE - Shows the total number of vertical feet or meters you have climbed thus far.
   - SPEED - Shows the speed at which you are currently stepping, in steps-per-minute.
   - METS - Shows your current METS expenditure at that specific time during your workout.

PAUSE MODE

If you come to a complete stop during your workout (SPM is less than 10), the StairMill will enter a "pause" mode. To continue your workout, begin stepping before the "pause" timer expires and your workout data will not be lost.

COOLDOWN CYCLE

Once you have completed your workout, the StairMill enters a two-minute Cooldown cycle.

NOTE: The StairMill software is programmed to properly decrease difficulty level to provide a cooldown.

To operate the StairMill during cooldown:

1. You can adjust the difficulty LEVEL during Cooldown.

   - Use the ⓪•••⑨ keys to enter a difficulty LEVEL (from 1 to 20); or press the Ⓐ or ▽ key, as desired, to increase or decrease the difficulty LEVEL in 1 unit increments.
   - When the desired difficulty LEVEL has been entered by using the ⓪•••⑨ keys, press the ⓄⓀ key to accept the displayed LEVEL.

2. When the cooldown cycle ends, your workout summary displays in the information window. If you wish to exit the cooldown cycle before it ends automatically, stop stepping.

USING THE PERSONAL FAN

The Star Trac StairMill is equipped with a built-in personal fan to increase your comfort during a workout. You can control the fan speed during your workout.

To operate the personal fan:

- Press the key, as necessary, to cycle the personal fan from OFF to HIGH to LOW to OFF. An LED indicator lights to show the currently selected fan speed.
- The fan remains set at the set speed if you pause your program, unless your workout was less than two minutes in length.
- The fan turns off automatically if you exit your workout, or when you complete your workout program.
- The fan turns off automatically if you pause your program and the time elapsed is less than two minutes.

HEART RATE MONITORING

Heart rate monitoring allows you to determine if your workout is too challenging or not challenging enough. Monitoring your heart rate is easy with the Star Trac StairMill. You may use a heart rate strap, or you can simply grasp the silver contact heart rate grips. Your goal will be to keep your exercise heart rate between 60 and 90 percent of the theoretical maximum for your age, as shown in the accompanying target heart rate table.

NOTE: The Heart Rate monitor is not a medical test, nor is it designed as a medical test. It is simply a guide to target heart rate training. Please consult with your physician prior to engaging in any strenuous physical activity.

NOTE: If both the heart rate grips and a heart rate strap are being used, the heart rate grips will override and be displayed in the HR window.

IMPORTANT: The manufacturer does not warrant the heart rate system performance on this product, as the heart rate system performance varies, based on a user's physiology, fitness level, age, method of use and other factors. Furthermore, the heart rate system is not for medical use.

To calculate your training zone, use the following formulas:
(theoretical max HR = 220 - Age)

Heart Rate Training Range Upper Level

_____x   0.90   =

_____
Your Theoretical Max   Training Range Upper Limit

Heart Rate Training Range Lower Level

_____x   0.60   =

_____
Your Theoretical Max   Training Range Lower Limit

NOTE: Calculating your theoretical maximum heart rate using age is an approximation. For more information, please contact a fitness professional or doctor.

CONTACT HEART RATE MONITORING

You may use the heart rate contact grips to automatically check your heart rate while stepping. Just follow these steps.

1. Grasp the stainless steel heart rate contact grips; you do not have to squeeze tightly.

   - When the heart rate contact grips are grasped, the ▩ will display and an audible "beep" will sound to indicate that a heart rate has been detected.

2. It may take from 30 to 60 seconds for the heart rate system to acquire and display your heart rate.

3. When your heart rate has been acquired, the ▦ indicator and your heart rate in beats per minute (BPM) displays in the HEART RATE field of the Information Window.

4. Release the Heart Rate grips if you wish to remove your heart rate reading from the display.

CHEST STRAP HEART RATE MONITORING

You may use the heart rate strap to automatically check your heart rate. Just follow these steps:

1. Before beginning your workout, or during a pause, moisten the back of the transmitter on the heart rate strap. Place the strap snugly around your chest with the transmitter resting directly over your sternum.

2. When your heart rate has been acquired, the ▦ indicator and your heart rate in beats per minute (BPM) display in the HEART RATE field of the Information Window.

3. Remove the heart rate strap if you wish to remove your heart rate reading from the display.

NOTE: The performance of the transmitter may be affected by body types, body oils, metal in clothing, and outside electrical interference. Always be sure that the transmitter and skin are in good contact. Avoid operating other electrical equipment near your StairMill when you use the heart rate strap.

QUICK START [QUICK START]

Quick Start lets you begin your workout by simply pressing one key, or by stepping for approximately 13 seconds without pressing any key. Quick Start uses a default weight as set in Manager/Maintenance Mode, a difficulty LEVEL of 1, and a time limit as set in Manager/Maintenance Mode. YOU control the resistance LEVEL during the entire program.

To operate the Quick Start program:

1. Mount the StairMill, begin stepping, and press the QUICK START key.

2. If desired, you can use the personal fan during your workout (see "Using the Personal Fan" for details).

3. You can adjust the difficulty LEVEL during the program, using either of the following methods.

   ▪ Use the ⑩•••⑨ keys to enter a difficulty LEVEL (from 1 to 20). When the desired level has been entered, press the ⑯ key to confirm the difficulty LEVEL.

   ▪ Press the ⬆ or ⬇ key, as desired, to increase or decrease the difficulty LEVEL in 1 unit increments.

4. You can scroll through workout data during the program (see "Viewing Workout Data During a Program" for details).

5. If you wish to pause the program, stop stepping. The Stepper will enter pause mode and display your workout results for one entire cycle.

6. When you have reached your workout goal, the StairMill enters the cooldown cycle (see "cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the pause timer to expire. If you wish to skip the Cooldown cycle, press the ⑯ key to view your workout summary.

PRESET PROGRAMS

The Star Trac E-SM StairMill offers 8 preset programs to add variety and challenge to your workout. Additionally, the HR TRAIN- ING feature lets you select one of two cardio-intensive training programs, or a Fitness Test.

Pre-set programs include:

(Ⓖ MANUAL)   Allows the user to pre-program a time goal and user weight. Difficulty is determined by the user during the program.

(ⓕ FAT BURNER)   Provides a high intensity interval workout.

(ⓣ THIGH TONER)   Provides a workout designed to target the thigh muscles.

(ⓖ GLUTE SCULPTOR)   Provides a workout designed to target the gluteal muscles.

(ⓐ FAMOUS STEPS)   Provides a motivational workout in which the user can climb one of nine famous landmarks.

(ⓣ TRAINING TOOLS)   Advanced programs that offer the user the ability to train in specific HR zones, or perform a Fitness Test.

NOTE: When entering setup data for any program, if the ⑯ key is not pressed, the system will "auto-advance" through the prompts.

MANUAL PROGRAM

The MANUAL program allows the user to pre-program a time goal, difficulty LEVEL and user weight. Difficulty LEVEL can be adjusted by the user during the program.

To operate the MANUAL program:

1. Mount the StairMill, begin stepping, and press the (Ⓖ MANUAL) key.

2. You are prompted to enter your weight. The StairMill displays a default weight as set in Manager/Maintenance Mode. You may enter any weight from 1 to 350 pounds (1 to 158 kg).

   ▪ Use the ⑩•••⑨ keys to enter your current weight; or press the ⬆ or ⬇ key, as necessary, to increase or decrease the displayed weight in 1 pound (or 1 kg) increments.

   ▪ When your correct weight has been entered, press the ⑯ key to accept the displayed value.

3. You are prompted to enter a time goal. The default time is 20 minutes, or equal to the time parameter set in Manager/ Maintenance Mode if less than 20 minutes. You may enter any time from 1 to 99 minutes.

   ▪ Use the ⑩•••⑨ keys to enter your desired time goal; or press the ⬆ or ⬇ key, as necessary, to increase or decrease the displayed value in 1 minute increments.

   ▪ When your desired goal has been entered, press the ⑯ key to accept the displayed value.

4. You are prompted to enter a difficulty LEVEL.

- Use the ⓪•••⑨ keys to enter a difficulty LEVEL (from 1 to 20) or press the ⒜ or ▽ key, as desired, to increase or decrease the difficulty LEVEL in 1 unit increments.

- When the desired difficulty LEVEL has been entered, press the Ⓞⓚ key to accept the displayed LEVEL.

5. If desired, you can use the personal fan during your workout (see "Using the Personal Fan" for details).

6. You can adjust the difficulty LEVEL during the program, using either of the following methods:

- Use the ⓪•••⑨ keys to enter a difficulty LEVEL (from 1 to 20). When the desired level has been entered, press the Ⓞⓚ key to confirm the difficulty LEVEL.

- Press the ⒜ or ▽ key, as desired, to increase or decrease the difficulty LEVEL in 1 unit increments.

7. You can scroll through the workout data during the program (see "Viewing Workout Data During a Program" for details).

8. If you wish to pause the program, stop stepping. The StairMill will enter pause mode and display your workout results for one entire cycle.

9. When you have reached your workout goal, the StairMill enters the cooldown cycle (see "Cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the Pause timer to expire.

FAT BURNER PROGRAM

The FAT BURNER program provides a high intensity interval workout.
To operate the program:

1. Mount the StairMill, begin stepping, and press the ⟨🔥 FAT BURNER⟩ key.

2. You are prompted to enter your weight. The StairMill displays a default weight as set in Manager/Maintenance Mode. You may enter any weight from 1 to 350 pounds (1 to 158 kg).

- Use the ⓪•••⑨ keys to enter your current weight; or press the ⒜ or ▽ key, as necessary, to increase or decrease the displayed weight in 1 pound (or 1 kg) increments.

- When your correct weight has been entered, press the Ⓞⓚ key to accept the displayed value.

3. You are prompted to enter a time goal. The StairMill displays a default time of 20 minutes, or equal to the time parameter set in Manager/Maintenance Mode if less than 20 minutes. You may enter any time from 1 to 99 minutes.

- Use the ⓪•••⑨ keys to enter the desired time goal, or press the ⒜ or ▽ key, as necessary, to increase or decrease the displayed value in 1 minute increments.

- When your desired time goal has been entered, press the Ⓞⓚ key to accept the displayed value.

4. You are prompted to enter a difficulty LEVEL.

- Use the ⓪•••⑨ keys to enter a difficulty LEVEL (from 1 to 20) or press the ⒜ or ▽ key, as desired, to increase or decrease the difficulty LEVEL in 1 unit increments.

- When the desired difficulty LEVEL has been entered, press the Ⓞⓚ key to accept the displayed LEVEL.

5. If desired, you can use the personal cooling fan during your workout (see "Using the Cooling Fan" for details).

6. You can adjust the difficulty LEVEL during the program using either of the following methods:

- Use the ⓪•••⑨ keys to enter a difficulty LEVEL (from 1 to 20). When the desired difficulty LEVEL has been entered, press the Ⓞⓚ key to confirm the difficulty LEVEL.

- Press the ⒜ or ▽ key, as desired, to increase or decrease the difficulty LEVEL in 1 unit increments.

7. You can scroll through workout data during the program (see "Viewing Workout Data During a Program" for details).

8. If you wish to pause the program, stop stepping. The StairMill will enter pause mode and display your workout results for one entire cycle.

9. When you have reached your workout goal, the StairMill enters the Cooldown cycle (see "Cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the Pause timer to expire.

GLUTE SCULPTOR PROGRAM

The GLUTE SCULPTOR program provides a workout designed to target your gluteal muscles. For best results while using the GLUTE SCULPTOR program, stand up straight while stepping.
To operate the GLUTE SCULPTOR program:

1. Mount the StairMill, begin stepping, and press the (GLUTE SCULPTOR) key.

2. You are prompted to enter your weight. The StairMill displays a default weight as set in Manager/Maintenance Mode. You may enter any weight from 1 to 350 pounds (1 to 158 kg).

   ■ Use the (0)•••(9) keys to enter your current weight; or press the (△) or (▽) key, as necessary, to increase or decrease the displayed weight in 1 pound (or 1 kg) increments.

   ■ When you correct weight has been entered, press the (OK) key to accept the displayed value.

3. You are prompted to enter a time goal. The StairMill displays a default time of 20 minutes, or equal to the time parameter set in Manager/Maintenance Mode if less than 20 minutes. you may enter any time from 1 to 99 minutes.

   ■ Use the (0)•••(9) keys to enter the desired time goal, or press the (△) or (▽) key, as necessary, to increase or decrease the displayed value in 1 minute increments.

   ■ When your desired time goal has been entered, press the (OK) key to accept the displayed value.

4. You are prompted to enter a difficulty LEVEL.

   ■ Use the (0)•••(9) keys to enter a difficulty LEVEL (from 1 to 20) or press the (△) or (▽) key, as necessary, to increase or decrease the difficulty LEVEL in 1 unit increments.

   ■ When the desired difficulty LEVEL has been entered, press the (OK) key to confirm the difficulty LEVEL.

5. If desired, you can use the personal fan during your workout (see "Using the Personal Fan" for details).

6. You can adjust the difficulty LEVEL during the program, using either of the following methods:

   ■ Use the (0)•••(9) keys to enter a difficulty LEVEL (from 1 to 20). When the desired level has been entered, press the (OK) key to confirm the difficulty LEVEL.

   ■ Press press the (△) or (▽) key, as necessary, to increase or decrease the difficulty LEVEL in 1 unit increments.

7. You can scroll through the workout data during the program (see "Viewing Workout Data During a Program" for details).

8. If you wish to pause the program, stop stepping. The StairMill will enter a pause mode and display your workout results for one entire cycle.

9. When you have reached your workout goal, the StairMill enters the Cooldown cycle (see "Cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the Pause timer to expire. If you wish to skip the cooldown cycle, press the (OK) key to view your workout summary.

THIGH TONER PROGRAM

The THIGH TONER program provides a workout designed to target your thigh muscles. For best results while using the THIGH TONER program, lean forward slightly while stepping.

To operate the THIGH TONER program:

1. Mount the StairMill, begin stepping, and press the (THIGH TONER) key.

2. You are prompted to enter your weight. The StairMill displays a default weight as set in Manager/Maintenance Mode. You may enter any weight from 1 to 350 pounds (1 to 158 kg).

   ■ Use the (0)•••(9) keys to enter your current weight; or the (△) or (▽) key, as necessary, to increase or decrease the displayed weight in 1 pound (or 1 kg) increments.

   ■ When your correct weight has been entered, press the (OK) key to accept the displayed value.

3. You are prompted to enter a time goal. The StairMill displays a default time of 20 minutes, or equal to the time parameter set in Manager/Maintenance Mode if less than 20 minutes. you may enter any time from 1 to 99 minutes.

   ■ Use the (0)•••(9) keys to enter the desired time goal, or press the (△) or (▽) key, as necessary, to increase or decrease the displayed value in 1 minute increments.

- When your desired time goal has been entered, press the ⓞⓚ key to accept the displayed value.

4. You are prompted to enter a difficulty LEVEL.

   - Use the ⓪•••⑨ keys to enter a difficulty LEVEL (from 1 to 20) or press the ⬆ or ⬇ key, as necessary, to increase or decrease the difficulty LEVEL in 1 unit increments.

   - When the desired difficulty LEVEL has been entered, press the ⓞⓚ key to confirm the difficulty LEVEL.

5. If desired, you can use the personal fan during your workout (see "Using the Personal Fan" for details).

6. You can adjust the difficulty LEVEL during the program, using either of the following methods:

   - Use the ⓪•••⑨ keys to enter a difficulty LEVEL (from 1 to 20). When the desired level has been entered, press the ⓞⓚ key to confirm the difficulty LEVEL.

   - Press the ⬆ or ⬇ key, as necessary, to increase or decrease the difficulty LEVEL in 1 unit increments.

7. You can scroll through workout data during the program (see "Viewing Workout Data During a Program" for details).

8. If you wish to pause the program, stop stepping. The StairMill will enter a pause mode and display your workout results for one entire cycle.

9. When you have reached your workout goal, the StairMill enters the Cooldown cycle (see "Cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the Pause timer to expire. If you wish to skip the Cooldown cycle, press the ⓞⓚ key to view your workout summary.

FAMOUS STEPS PROGRAM

The FAMOUS STEPS program provides a motivational workout in which you can climb one of nine famous landmarks.

To operate the FAMOUS STEPS program:

1. Mount the StairMill, begin stepping, and press the ⬚FAMOUS STEPS⬚ key.

2. You are prompted to choose a famous landmark to climb. The information window shows the number and name of the current landmark. The graphic display shows the number of steps required to climb the landmark. The list of landmarks is cycled

   in the information window until a landmark is chosen. Use the ⓪•••⑨ keys to select the landmark you wish to climb, or press the ⓞⓚ key to select the currently displayed landmark. Details for each landmark are as follows:

Number	Name	Steps
1	Leaning Tower of Pisa	293
2	Taj Mahal	360
3	Great Pyramid	720
4	Space Needle	915
5	Petronas Towers	1,318
6	Empire State Building	1,576
7	CN Tower	1,776
8	Sears Tower	2,232
9	Eiffel Tower	2,731

NOTE: The number of steps for each landmark is based on the actual number of stairs for the landmark (if the information is available). If the number of steps is not available, or if the landmark does not have stairs leading to the top, the number of steps is based on the overall height of the landmark. The number of steps is calculated based on fifteen 8-inch stairs for each 10 vertical feet of height.

3. You are prompted to enter your weight. The StairMill displays a default weight as set in Manager/Maintenance Mode. You may enter any weight from 1 to 350 pounds (1 to 158 kg).

   - Use the ⓪•••⑨ keys to enter your current weight; or press the ⬆ or ⬇ key, as necessary, to increase or decrease the displayed weight in 1 pound (or 1 kg) increments.

   - When your correct weight has been entered, press the ⓞⓚ key to accept the displayed value.

4. You are prompted to enter a difficulty LEVEL.

- Use the (0)•••(9) keys to enter a difficulty LEVEL (from 1 to 20) or press the (△) or (▽) key, as necessary, to increase or decrease the difficulty LEVEL in 1 unit increments.

  - When the desired difficulty LEVEL has been entered, press the (OK) key to confirm the difficulty LEVEL.

5. If desired, you can use the personal fan during your workout (see "Using the Personal Fan" for details).

6. You can adjust the difficulty LEVEL during the program, using either of the following methods:

  - Use the (0)•••(9) keys to enter a difficulty LEVEL (from 1 to 20). When the desired level has been entered, press the (OK) key to confirm the difficulty LEVEL.

  - Press the (△) or (▽) key, as necessary, to increase or decrease the difficulty LEVEL in 1 unit increments.

7. You can scroll through workout data during the program (see "Viewing Workout Data During a Program" for details).

8. If you wish to pause the program, stop stepping. The StairMill will enter a pause mode and display your workout results for one entire cycle.

9. When you have reached your workout goal, the StairMill enters the Cooldown cycle (see "Cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the Pause timer to expire. If you wish to skip the Cooldown cycle, press the (OK) key to view your workout summary.

HEART RATE CONTROL PROGRAMS

TRAINING TOOLS offers both an Interval Heart Rate Control program and a Constant Heart Rate Control program, as well as a Fitness Test.

NOTE: For best results, use a heart rate strap. If user is wearing a heart rate strap, the StairMill will automatically use the data from the heart rate strap. Contact heart rate grips may not give an accurate heart rate.

To operate the INTERVAL HEART RATE Control program:

This heart rate feature is designed to gradually elevate your heart rate to the upper end of your selected training range, then gradually decrease your heart rate to the lower end of your selected training range by dynamically controlling the difficulty level. During the workout, this cycle will repeat several times until the time goal is complete, creating an interval training effect that is customized to the user's desired heart rate training range.

During the program setup, there must be at least an 20 BPM dif- ference between the lower heart rate limit and upper heart rate limit to ensure an interval workout.

By including interval exercise in your regular aerobic program, greater effects are noticed. Your heart and muscles will adapt to the increases in demand by utilizing stored calories for energy more effectively. Interval Heart Rate Control may potentially result in more calories expended. It will strengthen the heart, provide stress relief and variety to a workout. This program is more effective in training the body to remove excess lactic acid from the muscles.

DYNAMIC
Heart Rate
CONTROL

Target Heart Rate Table

To calculate your training zone, use the following formulas: (theoretical max HR = 220 - Age)

Heart Rate Training Range Upper Level

_____x   0.75   =
_____
Your Theoretical Max   Training Range Upper Limit

Heart Rate Training Range Lower Level

_____x   0.60   =
_____
Your Theoretical Max   Training Range Lower Limit

NOTE: Calculating your theoretical maximum heart rate using age is an approximation. For more information, please contact a fitness professional or doctor.

1. Mount the StairMill, begin stepping, and press the (TRAINING FOCUS) key.

2. You are prompted to select the desired HR TRAINING program. Press the (1) key to select Interval Heart Rate Control.

3. You are prompted to enter your weight. The StairMill displays a default weight as set in Manager/Maintenance Mode. You may enter any weight from 1 to 350 pounds (1 to 158 kg).

  - Use the (0)•••(9) keys to enter your current weight; or press the (△) or (▽) key, as necessary, to increase or decrease the displayed weight in 1 pound (or 1 kg) increments.

  - When your correct weight has been entered, press the (OK) key to accept the displayed value.

4. You are prompted to enter a time goal. The StairMill displays a default time of 20 minutes, or equal to the time parameter set in Manager/Maintenance Mode if less than 20 minutes. You may enter any time from 1 to 99 minutes.

- Use the ⓪•••⑨ keys to enter the desired time goal, or press the △ or ▽ key, as necessary, to increase or decrease the displayed value in 1 minute increments.

- When your desired time goal has been entered, press the ⓞₖ key to accept the displayed value.

5. You are prompted to enter your age.

   - Use the ⓪•••⑨ keys to enter your age, or press the △ or ▽ key, as necessary, to increase or decrease the displayed value in 1 year increments.

   - When your correct age has been entered, press the ⓞₖ key to accept the displayed value.

6. You are prompted to enter an upper heart rate limit. The StairMill displays a default upper heart rate limit that is based on 80% of your theoretical maximum heart rate (220 BPM - age). You may enter any value from 90 to 200 BPM.

   - Use the ⓪•••⑨ keys to enter an upper heart rate limit, or press the △ or ▽ key, as desired, to increase or decrease the heart rate limit in 1 BPM increments.

   - When the desired upper heart rate limit has been entered, press the ⓞₖ key to accept the displayed value.

7. You are prompted to enter a lower heart rate limit. The StairMill displays a default lower heart rate limit that is based on 60% of your theoretical maximum heart rate (220 BPM - age). You may enter any value from 70 BPM to 20 BPM less then the upper heart rate limit set in step 6.

   - Use the ⓪•••⑨ keys to enter a lower heart rate limit, or press the △ or ▽ key, as desired, to increase or decrease the heart rate limit in 1 BPM increments.

   - When the desired lower heart rate limit has been entered, press the ⓞₖ key to accept the displayed value.

8. If desired, you can use the personal fan during your workout (see "Using the Personal Fan" for details).

9. You can scroll through workout data during the program (see "Viewing Workout Data During a Program" for details).

10. If you wish to pause the program, stop stepping. The StairMill will enter pause mode and display your workout results for one entire cycle.

11. When you have reached your workout goal, the StairMill enters the cooldown cycle (see "Cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the Pause timer to expire.

To operate the CONSTANT HEART RATE Control program:

This heart rate feature is designed to maintain your heart rate at a constant level by controlling the difficulty level and prompting you to step at a specified speed. Please note that your heart rate may vary above and below your target heart rate during this program.
1. Mount the StairMill, begin stepping, and press the [TRAINING FOCUS] key.

2. You are prompted to select the desired HR TRAINING program. Press the ② key to select Constant Heart Rate Control.

3. You are prompted to enter your weight. The StairMill displays a default weight as set in Manager/Maintenance Mode. You may enter any weight from 1 to 350 pounds (1 to 158 kg).

   - Use the ⓪•••⑨ keys to enter your current weight; or press the △ or ▽ key, as necessary, to increase or decrease the displayed weight in 1 pound (or 1 kg) increments.

   - When your correct weight has been entered, press the ⓞₖ key to accept the displayed value.

4. You are prompted to enter a time goal. The StairMill displays a default time of 20 minutes, or equal to the time parameter set in Manager/Maintenance Mode if less than 20 minutes. You may enter any time from 1 to 99 minutes.

   - Use the ⓪•••⑨ keys to enter the desired time goal, or press the △ or ▽ key, as necessary, to increase or decrease the displayed value in 1 minute increments.

   - When your desired time goal has been entered, press the ⓞₖ key to accept the displayed value.

5. You are prompted to enter your age.

   - Use the ⓪•••⑨ keys to enter your age, or press the △ or ▽ key, as necessary, to increase or decrease the displayed value in 1 year increments.

   - When your correct age has been entered, press the ⓞₖ key to accept the displayed value.

6. You are prompted to enter a target heart rate. The StairMill displays a default target heart rate that is based on 70% of your theoretical maximum heart rate (220 BPM - age). You may enter any value from 70 to 200 BPM.

   - Use the ⓪•••⑨ keys to enter your target heart rate, or press the △ or ▽ key, as desired, to increase or decrease the target heart rate in 1 BPM increments.

- When the desired target heart rate has been entered, press the ⊙ⓚ key to accept the displayed value.

7. If desired, you can use the personal fan during your workout (see "Using the Personal Fan" for details).

8. You can scroll through workout data during the program (see "Viewing Workout Data During a Program" for details).

9. If you wish to pause the program, stop stepping. The StairMill will enter pause mode and display your workout results for one entire cycle.

10. When you have reached your workout goal, the StairMill enters the Cooldown cycle (see "Cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the Pause timer to expire.

FITNESS TEST

The FITNESS TEST program is designed to gradually elevate your heart rate to the upper end of your training range. The program begins with a three minute warm up cycle. Upon completion of the three minute warm up cycle, your heart rate is read and recorded. Based on this heart rate level the test progresses to the second stage, which correlates to your heart rate. This stage is one minute long. This procedure continues until two steady-state heart rates are obtained between 115-150 bpm. Upon completion of the test, your $VO_{2\ max}$ is displayed in METS and in $mL*kg^{-1}*min^{-1}$. Based on your $V_{O2\ max}$ score, your fitness level is also be displayed.

To operate the Fitness Test program:

1. Mount the StairMill, begin stepping, and press the (🍏 TRAINING FOCUS) key.

2. You are prompted to select the desired HR TRAINING program. Press the ③ key to select Fitness Test.

3. You are prompted to enter your weight. The StairMill displays a default weight as set in Manager/Maintenance Mode. You may enter any weight from 1 to 350 pounds (1 to 158 kg).

   - Use the ⓪•••⑨ keys to enter your current weight; or press the △ or ▽ key, as necessary, to increase or decrease the displayed weight in 1 pound (or 1 kg) increments.

   - When your correct weight has been entered, press the key to accept the displayed value.

4. You are prompted to enter your gender. Press the ① key for male and the ② key for female.

   - When your correct gender has been entered, press the ⊙ⓚ key to accept the displayed value.

5. You are prompted to enter your age.

   - Use the ⓪•••⑨ keys to enter your age, or press the △ or ▽ key, as necessary, to increase or decrease the displayed value in 1 year increments.

   - When your correct age has been entered, press the ⊙ⓚ key to accept the displayed value.

6. If desired, you can use the personal fan during your workout (see "Using the Personal Fan" for details).

7. You can scroll through workout data during the program (see "Viewing Workout Data During a Program" for details).

8. If you wish to pause the program, stop stepping. The StairMill will enter pause mode and display your workout results for one entire cycle.

9. When you have reached your workout goal, the StairMill enters the cooldown cycle (see "Cooldown Cycle" for details). If you wish to exit the program before you have reached your workout goal, stop stepping and allow the Pause timer to expire.

PREVENTATIVE MAINTENANCE

With durable, high performance components, the Star Trac E-SM StairMill is designed for heavy usage with minimal maintenance required. To keep your Stepper in top condition, Star Trac strongly recommends performing the regular daily, weekly and monthly preventive maintenance routines outlined below. Any unusual symptoms, such as a loud continuous noise during operation, should be reported to STAR TRAC PRODUCT SUPPORT DEPARTMENT at (800) 503-1221, or USA 1-714-669-1660.

DAILY MAINTENANCE

■ Remove excessive accumulations of dust, dirt, and other substances by using a clean, soft cloth and a non-abrasive liquid cleaner, such as Formula 409™ or FANTASTIK™. Wipe down the exterior of the display panel, hand rails, pedals, shrouds and heart rate grips.

   NOTE: DO NOT spray the cleaner directly onto the Display Panel or heart rate grips.

WEEKLY MAINTENANCE

Perform the following services each week:

■ Vacuum the floor under and around the StairMill.

■ Inspect the Display Panel mounting screws for security, and retighten if necessary.

■ Inspect the Display Panel keypads for wear.

MONTHLY MAINTENANCE

Perform the following services each month, or as needed:

■ Check that the steps and shrouds are secure.

■ Check the hand rails for looseness. Tighten screws as necessary.

■ Check for smooth and quiet operation of all moving parts.

MANAGER / MAINTENANCE MODE

After using your Star Trac E-SM StairMill for a period of time, you may wish to change some of its settings.

MANAGER MODE

The Manager Mode lets you query and modify the basic settings of your StairMill. To enter Manager Mode:

1. Press and hold the ⓪ , ① and ⓞⓚ keys together.
2. A beep will sound and "MANAGER MODE" will display momentarily in the Information Window.
3. Release all keys. "SERIAL NO #####" will display in the Information Window.

NOTE: The system will automatically exit Manager Mode if no key is pressed for 30 seconds.

The following keys are used to modify settings in MANAGER MODE:

  Upper and Lower Data Information Window SCROLL Keys: Display the next and previous parameters, respectively.

  Increase and Decrease LEVEL Keys: Adjust the value of the displayed parameter up and down, respectively, in increments of 1 unit. These keys do not save the new value - see OK Key below.

  Numeric Keypad: Allows you to enter specific values for numeric parameters. These keys do not save the new value - see OK Key below.

(OK) OK Key: Updates (saves) the values of all parameters in non-volatile memory, and exits Manager Mode.

NOTE: To exit Manager Mode without saving any values or settings, press the QUICK START key.

The items that you may display and change with the previous keys are:

Item	Lowest Value	Highest Value	Default Value	Meaning
Serial No	0	65535	0	Serial number (set by factory)
Date	01/00	12/99	01/05	Manufacture date for the Stepper (set by factory)
Display Vers 1	01.00	99.99	N/A	Display panel software version (set by factory)
Display Vers 2	01.00	99.99	N/A	Display panel software version (set by factory)
LCB Vers	01.00	99.99	N/A	Display panel software version (set by factory)
Units	English	Metric	English	English = units of pounds, feet,
				Metric = units of kilograms, meters
Time	5	99	99	Maximum time in minutes allowed for program, excluding cool-down.
Weight	1 (Lb)	350 (Lb)	155 lbs	Default (to user), typical weight in lb (UNITS=English), or kg
	1 (KG)	158 (KG)	70 (KG)	(UNITS=Metric).
Language	N/A	N/A	ENGL	Language is English (ENGL), Dutch (DUTC), French (FREN), German (GERM), Portuguese (PORT), Spanish (SPAN), Swedish (SWED), Italian (ITAL) or Katakana (KATA).

MAINTENANCE MODE

Your Service Representative may need to check accumulated data about the past usage of your Star Trac E-SM StairMill, test its display controls, or investigate error messages. For these reasons, your Stepper is equipped with a Maintenance Mode. The Maintenance Mode includes all of the items available through Manager Mode, plus additional items for Service and Diagnostic use. To enter Maintenance Mode:

1. Press and hold the (0), (2) and (OK) keys together.

2. A beep will sound and "MAINTENANCE MODE" will display momentarily in the Information Window.

3. Release all keys. "SERIAL NO #####" will display in the Information Window.

The following keys are available in MAINTENANCE MODE:

(SCROLL) Upper and Lower Data Information Window SCROLL Keys: Display the next and previous parameters, respectively. Keys will repeat if held.

(+) (−) Increase and Decrease LEVEL Keys: Adjust the value of the displayed parameter up and down, respectively, in increments of 1 unit. These keys do not save the new value - see OK Key below.

(0) ••• (9) Numeric Keypad: Allows you to enter specific values for numeric parameters. These keys do not save the new value - see OK Key below.

(OK) OK Key: Updates (saves) the values of all parameters in non-volatile memory, and exits Maintenance Mode.

NOTE: To exit Maintenance Mode without saving any values or settings, press the QUICK START key.

The items that you may display and change with the previous keys are:

Measurements	N/A	N/A	N/A	Access to integral Measurements function (for use by authorized Maintenance Technician).

TROUBLESHOOTING

Star Trac E-SM StairMill perform a self-test at the beginning of every workout. If a problem is detected, a message displays before or after the workout, depending on the nature of the problem. Star Trac recommends that you refer your questions about your Star Trac E-SM StairMill operation and suspected malfunctions to Star Trac's Service Hotline at (800) 503-1221, or USA 1-714-669-1660.

SERVICE MESSAGES

The following messages are displayed if the associated problem is detected during self-test.

- Key Down - One or more keys on the display panel are stuck in the "on" position. This can occur if a user presses keys before the system is turned on, or if a key is held down for more than 10 seconds. Call Star Trac Product Support for assistance if the Key Down message continues to display.

REGULATORY INFORMATION

This section provides regulatory and safety information pertaining to the Star Trac E-SM StairMill

FCC AND OTHER DOMESTIC REGULATIONS

The StairMill has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of FCC rules. Under FCC guidelines, operation is subject to the following two guidelines: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The StairMill generates and uses radio frequency energy. If the product is not installed and used in accordance with the instructions provided in the owner's manual, interference with radio communications may occur. Likewise, if unapproved accessories are installed, interference with radio communications may occur. The intent of the FCC class A limit is to provide reasonable protection against harmful interference in a commercial installation. However, there is no guarantee that interference may not occur in a specific installation. In the event that interference is experienced, turn off the unit to verify that it is the source. If the interference clears with the unit off, then try each of the following measures and combinations thereof:

- Reorient or relocate the StairMill.
- Reorient or relocate the receiving antenna for your television, radio or VCR.
- If using the wall outlet option, connect the unit to a different power outlet.
- Contact Star Trac Product Support, your authorized dealer, or a qualified radio/television technician for help.

This product has also been tested to meet the following standards:

- UL 1647 (1997) Motor Operated Massage and Exercise Machines

CANADIAN DOC AND OTHER REGULATIONS

This class A digital apparatus meets all requirements of the Canadian Interference Causing Equipment Regulations.

This product has also been tested to meet the following standards:

- CSA C22.2 No 0-M91 General Requirements
- CSA C22.2 No. 68-92 Motor Operated Appliances

EUROPEAN APPLICATIONS

This product has been tested to the following standards:

- EN 60335-1:1995   Safety of household and similar electrical appliances Part 1: General requirements
- EN 61000-6-1:2001   EMC Generic standards - Immunity for residential, commercial and light-industrial environments
- EN 61000-6-3:2001   EMC Generic standards - Emissions standard for residential, commercial and light-industrial environments
- EN 957-1   Safety of Machinery
