

## BOXMASTER® PRO

The BoxMaster Pro brings the opportunity to add boxing and MMA conditioning to every facility. Members can choose from a full range of workout add-ins, 30-minute total body conditioning with a 7-round system, and even group training options. Catering to all user levels, the BoxMaster Pro encourages proper technique and form with tighter angles for a super-realistic flow when throwing punches. The BoxMaster Pro is non-intimidating, allowing users to diversify their routine without the need for a trainer. With easy 10-second adjustments and softer pads for shock absorption, both right-handed (orthodox) and left-handed (southpaw) hitters will feel comfortable at the BoxMaster Pro.

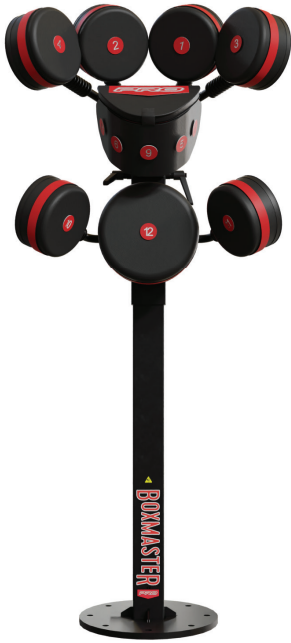

### BOXMASTER PROGRAMMING

BoxMaster comes with a total education program including training manual and scannable code that takes the user to a playlist of training videos. Instructor workshops are available to teach your staff effective training programs that accomplish total body conditioning. BoxMaster fitness programs can be an effective way to attract new members and generate revenue for your facility.

### SMART DESIGN

BoxMaster is designed with the user in mind, featuring 3 easy-to-use pins for tower height adjustment and the spring arm design provides optimal strike absorption and injury prevention.

### PRO TOWER 9BM-K9601

<b>HEIGHT</b>	82 in (208 cm)
<b>WIDTH</b>	33 in (84 cm)
